Dear Honorable Judge Ross
Hello... This is NORMAN Bess.

I'm writing you in concern with my
situation. I was sentenced to a
five month violation, that I began
in July & supposed to end in
Oct (Oct 26.) I'm writing because
now I'm being told that I have a
detainer for violation of supervision
monitoring system. This detainer was
placed upon me by the marshals
service. There are a couple of things
that I think you should know. While
I've been incarcerated the marshalls
went to the housing authority claiming
that I'm not on the lease so now
I can no longer reside there because
my grandmother signed something
stating I wouldn't reside there.
All this came about with the
marshalls, the fact that I knew
someone they were looking for
which happens to be the same person
I'm ~~violated~~ behind. I was desistated
from the time I turned myself
in to you yet I never made it
to my prison behind the marshalls
now I'm being told I won't be
released on Oct 26 unless the
warrant is dropped on a case that
I'm seeing now. Respectfully
NORMAN Judge Ross all I would like
to do is go home & do the right

thing. I'm sorry you is there any way
you can clear this situation for me
please. I'm trying to make it seem
like this is another supervision violation
yet its all the same one & I've served
the time for it.

Sincerely
Norman Bess
